

**TODAY'S  
SCRIPTURE:**  
**John 15:5**  
**Acts 17:28**

**SERMON TITLE:**

*"ABIDING IN  
THE PRESENCE  
OF GOD"*

**DIVINE NATURE:**

- 1. CREATOR**
- 2. LORD**
- 3. JUDGE**

"Therefore, the One  
whom you worship  
without knowing, Him I  
proclaim to you:"

**Acts 17:23**

"GOD, who made the  
world and everything in  
it, since He is Lord of  
heaven and earth, does  
not dwell in temples  
made with hands."

**Acts 17:24**

"Nor is He worshiped  
with men's hands, as  
though He needed  
anything, since He gives  
to all life, breath, and all  
things."

**Acts 17:25**

...HE...made every nation  
...to dwell on all  
the...earth,  
and...determined their  
preappointed times and  
the boundaries of their  
dwellings,."

**Acts 17:26**

"...SO that they should seek  
the Lord, in the hope  
that they might grope  
for Him and find Him,  
though He is not far  
from each one of us;"

**Acts 17:27**

"for in Him we live and  
move and have our  
being, as also some of  
your own poets have  
said, 'For we are also His  
offspring."

**Acts 17:28**

"Therefore, since we are  
the offspring of GOD, we  
ought not to think that  
the Divine Nature is like  
...something shaped by  
art and man's devising."

**Acts 17:29**

"I AM the vine, you *are*  
the branches. He who  
***abides in Me***, and I in  
him, bears much fruit;  
for without Me you can  
do nothing."

**John 15:5**

Details count! The AAA 88 shell had a timed fuse so it could be exploded at the approximate altitude of the target. Success was achieved when shrapnel from the round would shred aircraft and the men in them. The terms Falk and Ack Ack came from the guns name and the sound saying 8 8 in German..Alles Clar?

sounds like one of the things Germans were desperately trying to get rid of Allied bombers.

with a timed detonator, you select the detonation time. pressure detonator can sense altitude. think of the automated parachute deployment mechanism many skydivers use. just triggering the bomb instead of the chute. go figure. an aircraft flying above the bomber formation, dropping several fragmentation bombs with short delay fuze..

the idea was NOT to take out individual bombers but rather spread /break the large formations into smaller packets, easier to deal with.

however, this never really worked.

as far as the AAA was concerned, it was really a probability count. tehey fired enough rounds into the air to saturate the target area and get SOME of the bombers.
